

# TRAVELMATE & CHROMEBOOK 2026

**Antony Widjaja**

Commercial Product Manager, Acer Indonesia / 08151815612

ACER CONFIDENTIAL

## Tentang Acer Indonesia

Acer, sebagai pemimpin global di industri teknologi informasi dan komputer, menawarkan solusi terpadu untuk mendukung transformasi digital di Indonesia.

## Perjalanan Inovasi Acer Indonesia

### KOMPUTASI CLIENT

Acer menyediakan perangkat komputasi client kelas dunia yang lengkap, mulai dari notebook, dekstop AIO, monitor dan proyektor.

### SOLUSI +

Transformasi Acer menjadi perusahaan perangkat keras + perangkat lunak + service menjawab berkembangnya teknologi cloud dan IoT. Solusi Smart Water IoT untuk pengukuran dan analisa air secara digital, termasuk solusi agrikultur dan pemasaran presisi merupakan inovasi tercanggih di revolusi industri 4.0.

### KEAMANAN SIBER + PENCEGAHAN PANDEMI

Pengalaman 15+ tahun Acer Cyber Security Inc. (ACSI), menawarkan solusi keamanan siber untuk melindungi aset digital perusahaan, seiring meningkatnya penggunaan cloud dan big data. Monitor temperatur tubuh dengan pengenalan wajah adalah salah satu solusi pencegahan pandemi terkini.

### PERJALANAN INOVASI ACER INDONESIA

Lini Acerpure diperkenalkan di Indonesia sebagai bagian dari strategi global Acer untuk menjadi merek gaya hidup yang menghadirkan teknologi berkualitas di luar ranah IT.

1999 - 2016

### KOMPUTASI ENTERPRISE

Lahirnya komputasi kinerja tinggi (HPC) yang dirancang untuk memenuhi kebutuhan enterprise dan berbagai sektor bisnis, mulai dari berbagai server Altos, workstation, penyimpanan, thin client (PC Station) dan VDI (Virtual Desktop Infrastructure).

2017

2018

2019

### SOLUSI + LAYANAN PURNA JUAL

Acer & AOPEN bekerjasama untuk memperluas solusi ke Digital Signage, Kiosk, Parcel Pintar dan Pengenalan Wajah. HSN, layanan ICT profesional yang komprehensif, menyediakan teknologi dan layanan purna jual yang memenangkan penghargaan ICESA selama 11 tahun berturut-turut.

2020

2021

### EKOSISTEM PENDIDIKAN LENGKAP

Acer for Education mengembangkan teknologi untuk pendidikan. Di 2021, Acer bertransformasi untuk menawarkan solusi komprehensif pendidikan. Jelajah Ilmu (platform belajar komprehensif) adalah salah satu pencapaian kami.

2023

2025

### INOVASI & MEREK GAYA HIDUP

Lini small Acerpure diperkenalkan di Indonesia. Ini bagian dari strategi global Acer untuk menjadi merek gaya hidup yang menghadirkan teknologi berkualitas di luar ranah IT.

## Acer Manufacturing Indonesia

### Standar internasional yang sudah dipenuhi Acer Manufacturing Indonesia:

**Acer Manufacturing Indonesia yang didirikan tahun 2012 adalah pabrik Acer yang beroperasi secara lokal, berada di Indonesia, dan sudah lulus uji standar global yang ketat.**

#### Fasilitas Lengkap

Pabrik ini didirikan dengan fasilitas yang lengkap, mulai dari produksi perangkat chromebook, notebook, PC AIO, desktop dan server, hingga mampu melakukan kustomisasi *hardware* maupun *software*, menyesuaikan produk-produk Acer untuk memenuhi kebutuhan yang berbeda bagi semua segmen pelanggan, baik individu, bisnis hingga lembaga pemerintahan.

Dengan adanya pabrik Acer Manufacturing Indonesia (AMI), Acer dapat merancang dan membuat produk dengan konsistensi dan presisi yang sangat tinggi, memastikan bahwa produk-produk Acer sudah lulus standar internasional dalam seluruh proses produksinya.

#### Kontribusi Terhadap Perekonomian

Acer Manufacturing Indonesia juga memberikan kontribusi positif terhadap kemajuan industri dan perekonomian lokal di Indonesia dengan menyerap tenaga kerja dari dalam negeri dan alih teknologi. Dengan pengalaman AMI selama belasan tahun membuat Acer menjadi brand global satu-satunya yang memproduksi perangkat IT TKDN.

**ISO 9001:2015**

## **Hinge Design Enhancements for Durability and Rigidity**

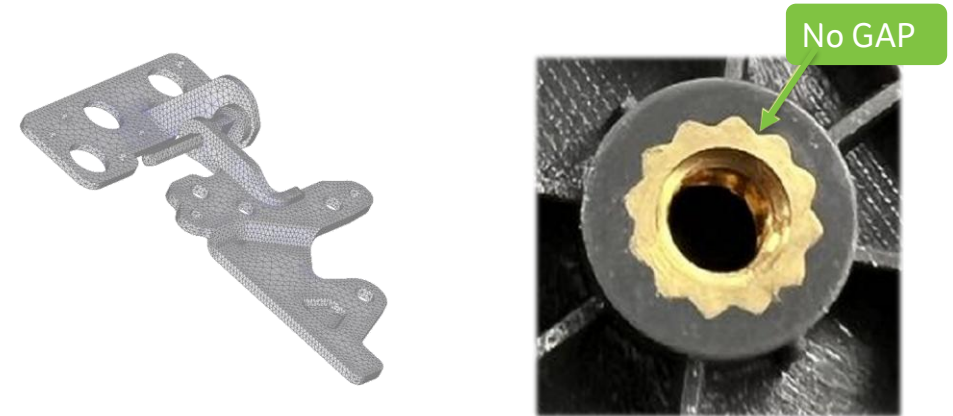

# Uncompromising Durability & Precision: The Next Generation of TravelMate Hinge Design

Acer has redefined hinge engineering for unparalleled strength and reliability across our P2 and P4 series.

**Reinforced Hinge Durability:** Acer has strengthened the TravelMate P2 series with a larger 618.1mm<sup>2</sup> hinge bracket and advanced insert molding nut technology, boosting anti-torsion by 15% and anti-tension by 8%. Hinge life testing has also been extended **from 25,000 to 60,000** cycles to ensure long-term durability.

If a user opens and closes their TravelMate laptop 20 times per day, the hinge could last for approximately 8.2 years\*—based on a durability rating of 60,000 cycles.  
(*Calculation:  $60,000 \div 20 \div 365 = 8.2$  years*)

\*Please check Acer for product warranty. Typically, the warranty for TravelMate laptops are two years.

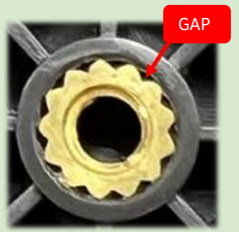

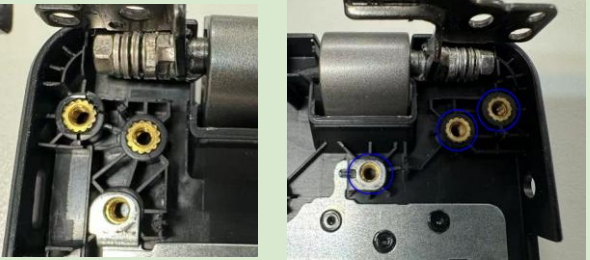

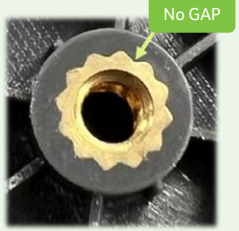

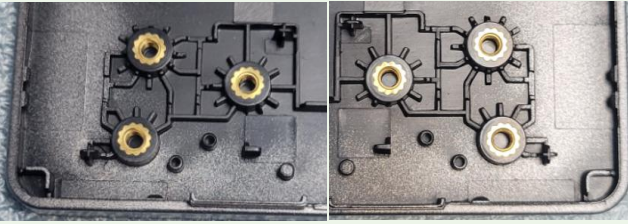

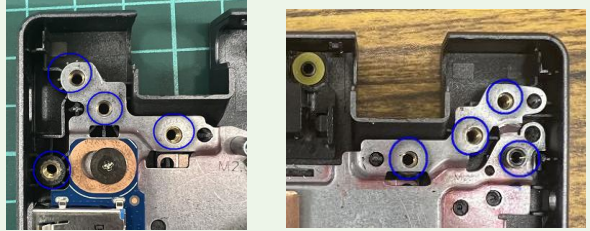

**Video of hinge cycle severe torture test**

# TravelMate P2: Redefining Durability with Advanced Hinge Nut Technology

Experience enhanced structural integrity thanks to our revolutionary "**Insert Molding**" nut assembly process, a significant upgrade for the P2 series.

- **Evolution of Strength:** Acer has upgraded from the traditional heat-melt nut method (embedded after molding) to advanced insert molding nut technology, which embeds the nut directly during molding.
- **Superior Bonding:** Unlike the older design that could leave small gaps, insert molding ensures a complete bond with increased friction surface between the nut and the boss—resulting in stronger structural integrity.
- **Enhanced Durability:** This improvement delivers a **15%** boost in anti-torsion force and an **8%** increase in anti-tension force, making the new TravelMate devices more resistant to everyday wear and tear.
- **Integrated Metal Support:** The latest TravelMate P2 models\* feature a combination of plastic boss insert molding and metal boss reinforcement in the top cover—adding critical strength where it's needed most.

			A Cover	C Cover
<b>Old</b> Heat-melt nut design	A small gap may exist between the nut and boss bonding surfaces, potentially weakening the connection.			
<b>New</b> Insert molding nut design	The nut and boss form a fully integrated bond, ensuring maximum contact and structural strength.			

\*From 2022 onwards, e.g., Projects Trumpet, Trombone, Vibraphone, Xylophone, Cymbal, and Drumstick.

# Acer ProShield Plus Complete Protection. Zero Compromise.

 Built-in. Always On.  
Always Protecting.

Acer ProShield Plus is your all-in-one security shield—designed to keep your data, identity, and device safe from every angle.

## 5. File Encryption & Decryption

Protect your private files from unauthorized access. Easily encrypt, decrypt, shred, or move files to your Personal Secure Drive with just a click.

## 6. File Shredder

Permanently overwrite data to make recovery impossible. Because deleted should mean deleted.

## 7. Personal Secure Drive (PSD)

Your personal vault for important data. Store, resize, or relocate your secure drive anytime—your data, your control.

## 8. Alert

Instant email alerts keep you informed of any failed access attempts—so you're always one step ahead.

**Acer ProShield Plus**  
All-in-one security.  
Total peace of mind.

Stronger Protection | Seamless Experience | Smarter Security

## 1. Windows Hello Integration

Goodbye passwords. Hello to simplicity. Log in securely with Windows Hello authentication like PIN.

1.

## 2. Performance Improvement

Enjoy faster encryption & decryption speeds—up to 33% faster file encryption and up to 60% faster decryption.<sup>1</sup> Multi-process encryption supported.

2.

## 3. App Guard

Choose which apps can access your data. Require Windows Hello authentication before they launch.

3.

## 4. Browser Guard

Lock your profile. Prevent browsers from auto-filling IDs or passwords—keeping your online identity truly yours.

4.

**One Suite. All Around Security.**  
*Stronger Together.*

<sup>1</sup> Based on single file that is 1 GB in size. The comparison is done between Acer ProShield v2.0.6.0 and Acer ProShield Plus v1.0.0.0

# TravelMateSense

Access, Manage, and customize your PC to work best with the press of a button with the new Hotkey on your Keyboard

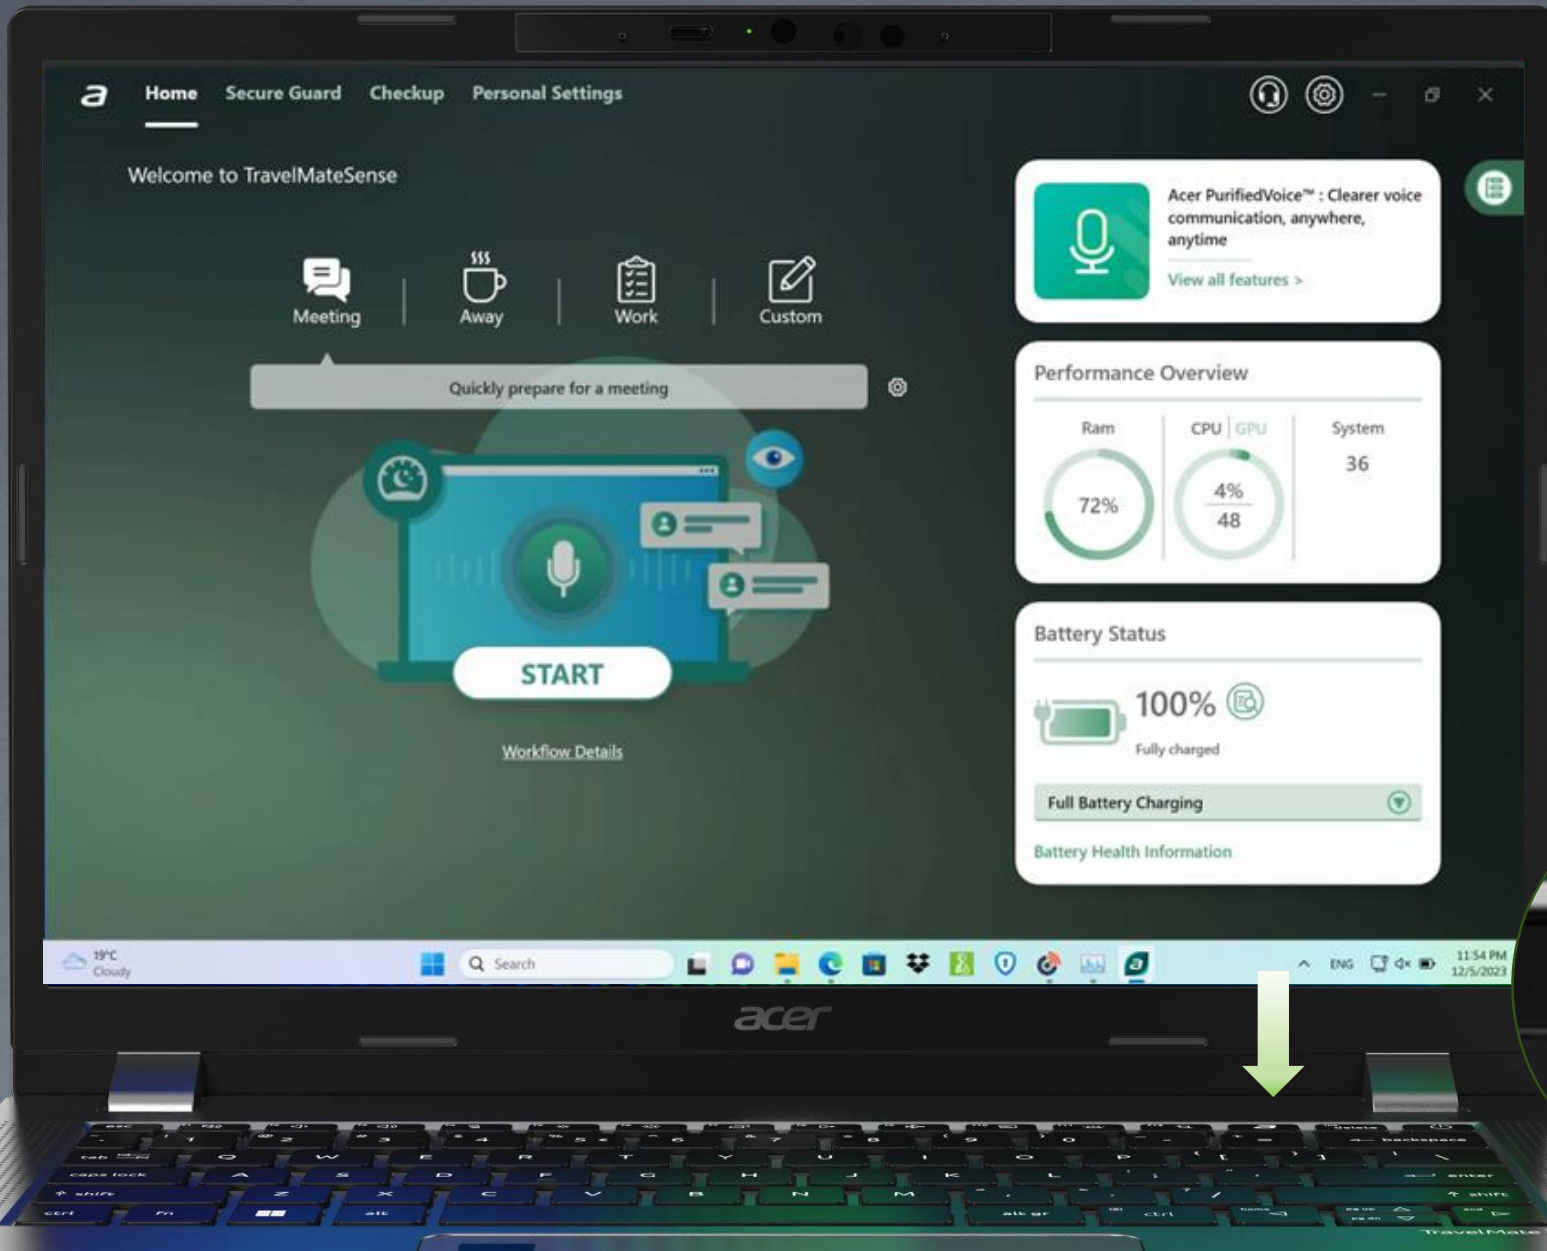

**Workflow:** With a single click, start one of the three pre-defined workflow and activate the best setting for your current scenario.

**Secure Guard:** Quickly disable USB devices, create a Personal Secure Drive (PSD), and provide encryption and decryption for confidential files.

**Experience Zone:** A suite of AI-enhanced features for collaboration.

**Checkup:** Check the current system healthy status, optimize battery usage and storage space.

**Personal Settings:** Customize hardware settings.

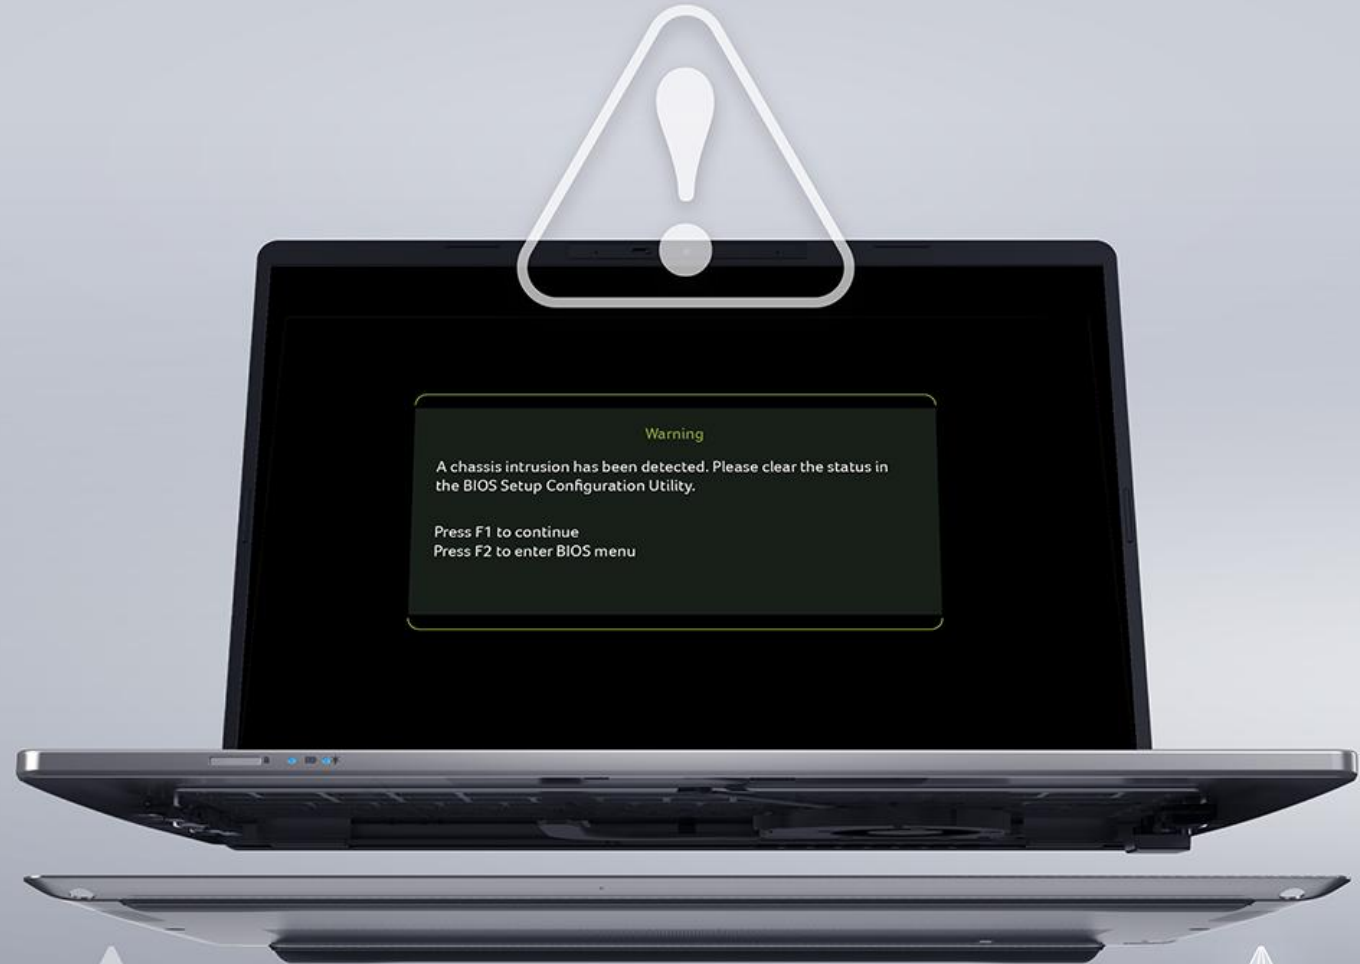

# Secure Your Business with the New TravelMate P Series

Uncompromising security is now at your fingertips with the newly available optional Chassis Intrusion Alarm<sup>1</sup> in the 2026 TravelMate P series. Designed for the modern professional, this cutting-edge feature instantly detects if your laptop's hardware has been tampered with or if the casing has been opened without consent. Once an intrusion is detected, a persistent warning message appears at the next boot, ensuring you are immediately notified of potential security risks. The primary advantage is absolute peace of mind; even when your device is out of sight, its physical integrity is protected. Users can easily manage and clear these alerts within the BIOS menu, allowing for a seamless return to productivity after a security check. With the TravelMate P series, you aren't just buying a laptop—you're investing in a fortress for your data.

## Key Highlights of the Chassis Intrusion Alarm:

- **Real-Time Detection:** Automatically triggers if the “bottom cover” is opened.
- **Tamper-Evident Alerts:** A clear warning message is displayed during the boot process to notify the user of any unauthorized access.
- **BIOS Integration:** Securely clear intrusion statuses and manage settings directly within the BIOS security menu.
- **Proactive Protection:** Discourages physical hardware theft or internal tampering by unauthorized personnel.

\* Specifications may vary depending on model and/or region. All models subject to availability.

**Chassis Intrusion Alarm**

1 - The on-screen text has been enlarged and enhanced for illustrative purposes only.

## Dust Defender

Laptops rely on air flow through the heat pipe and fin to expel exhaust heat. After long periods of use, dust will begin to accumulate on the fin and obstruct air flow, resulting in lower thermal performance for your laptop, to the point that it can cause lag or even permanent damage.

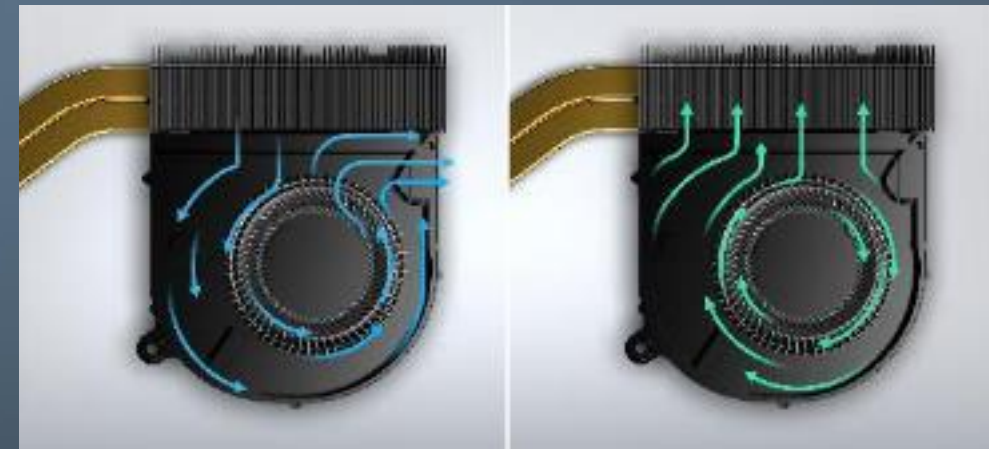

When Acer DustDefender is in operation, the fan can spin clockwise and counterclockwise, allowing air to flow in two directions. Along with a precise algorithm and specially designed groove on the fan, Acer DustDefender blows dust out to minimize dust accumulation in your device.

Acer DustDefender is programmed to automatically clear out dust when the system is powered on and regularly clean up for every 6 hours of use. However if it detects you are using your laptop at peak performance, such as multitasking or gaming, it will halt operation until you are finished.

Blow dust out through the dust door

The fan spinning counterclockwise to blow dust out.

The fan spinning clockwise to dissipate exhaust heat.

# Acer User Sensing™

## 2.0

### Multi-Screen Assistance

Cursor teleporting and Window teleporting of Multi-Screen Assistance are enabled when users connect one or two external display(s). If users don't connect any external display, the 2 teleporting features will be disabled.

### Cursor Teleporting

When your head moves to another screen, your cursor instantly follows, landing right at the center.

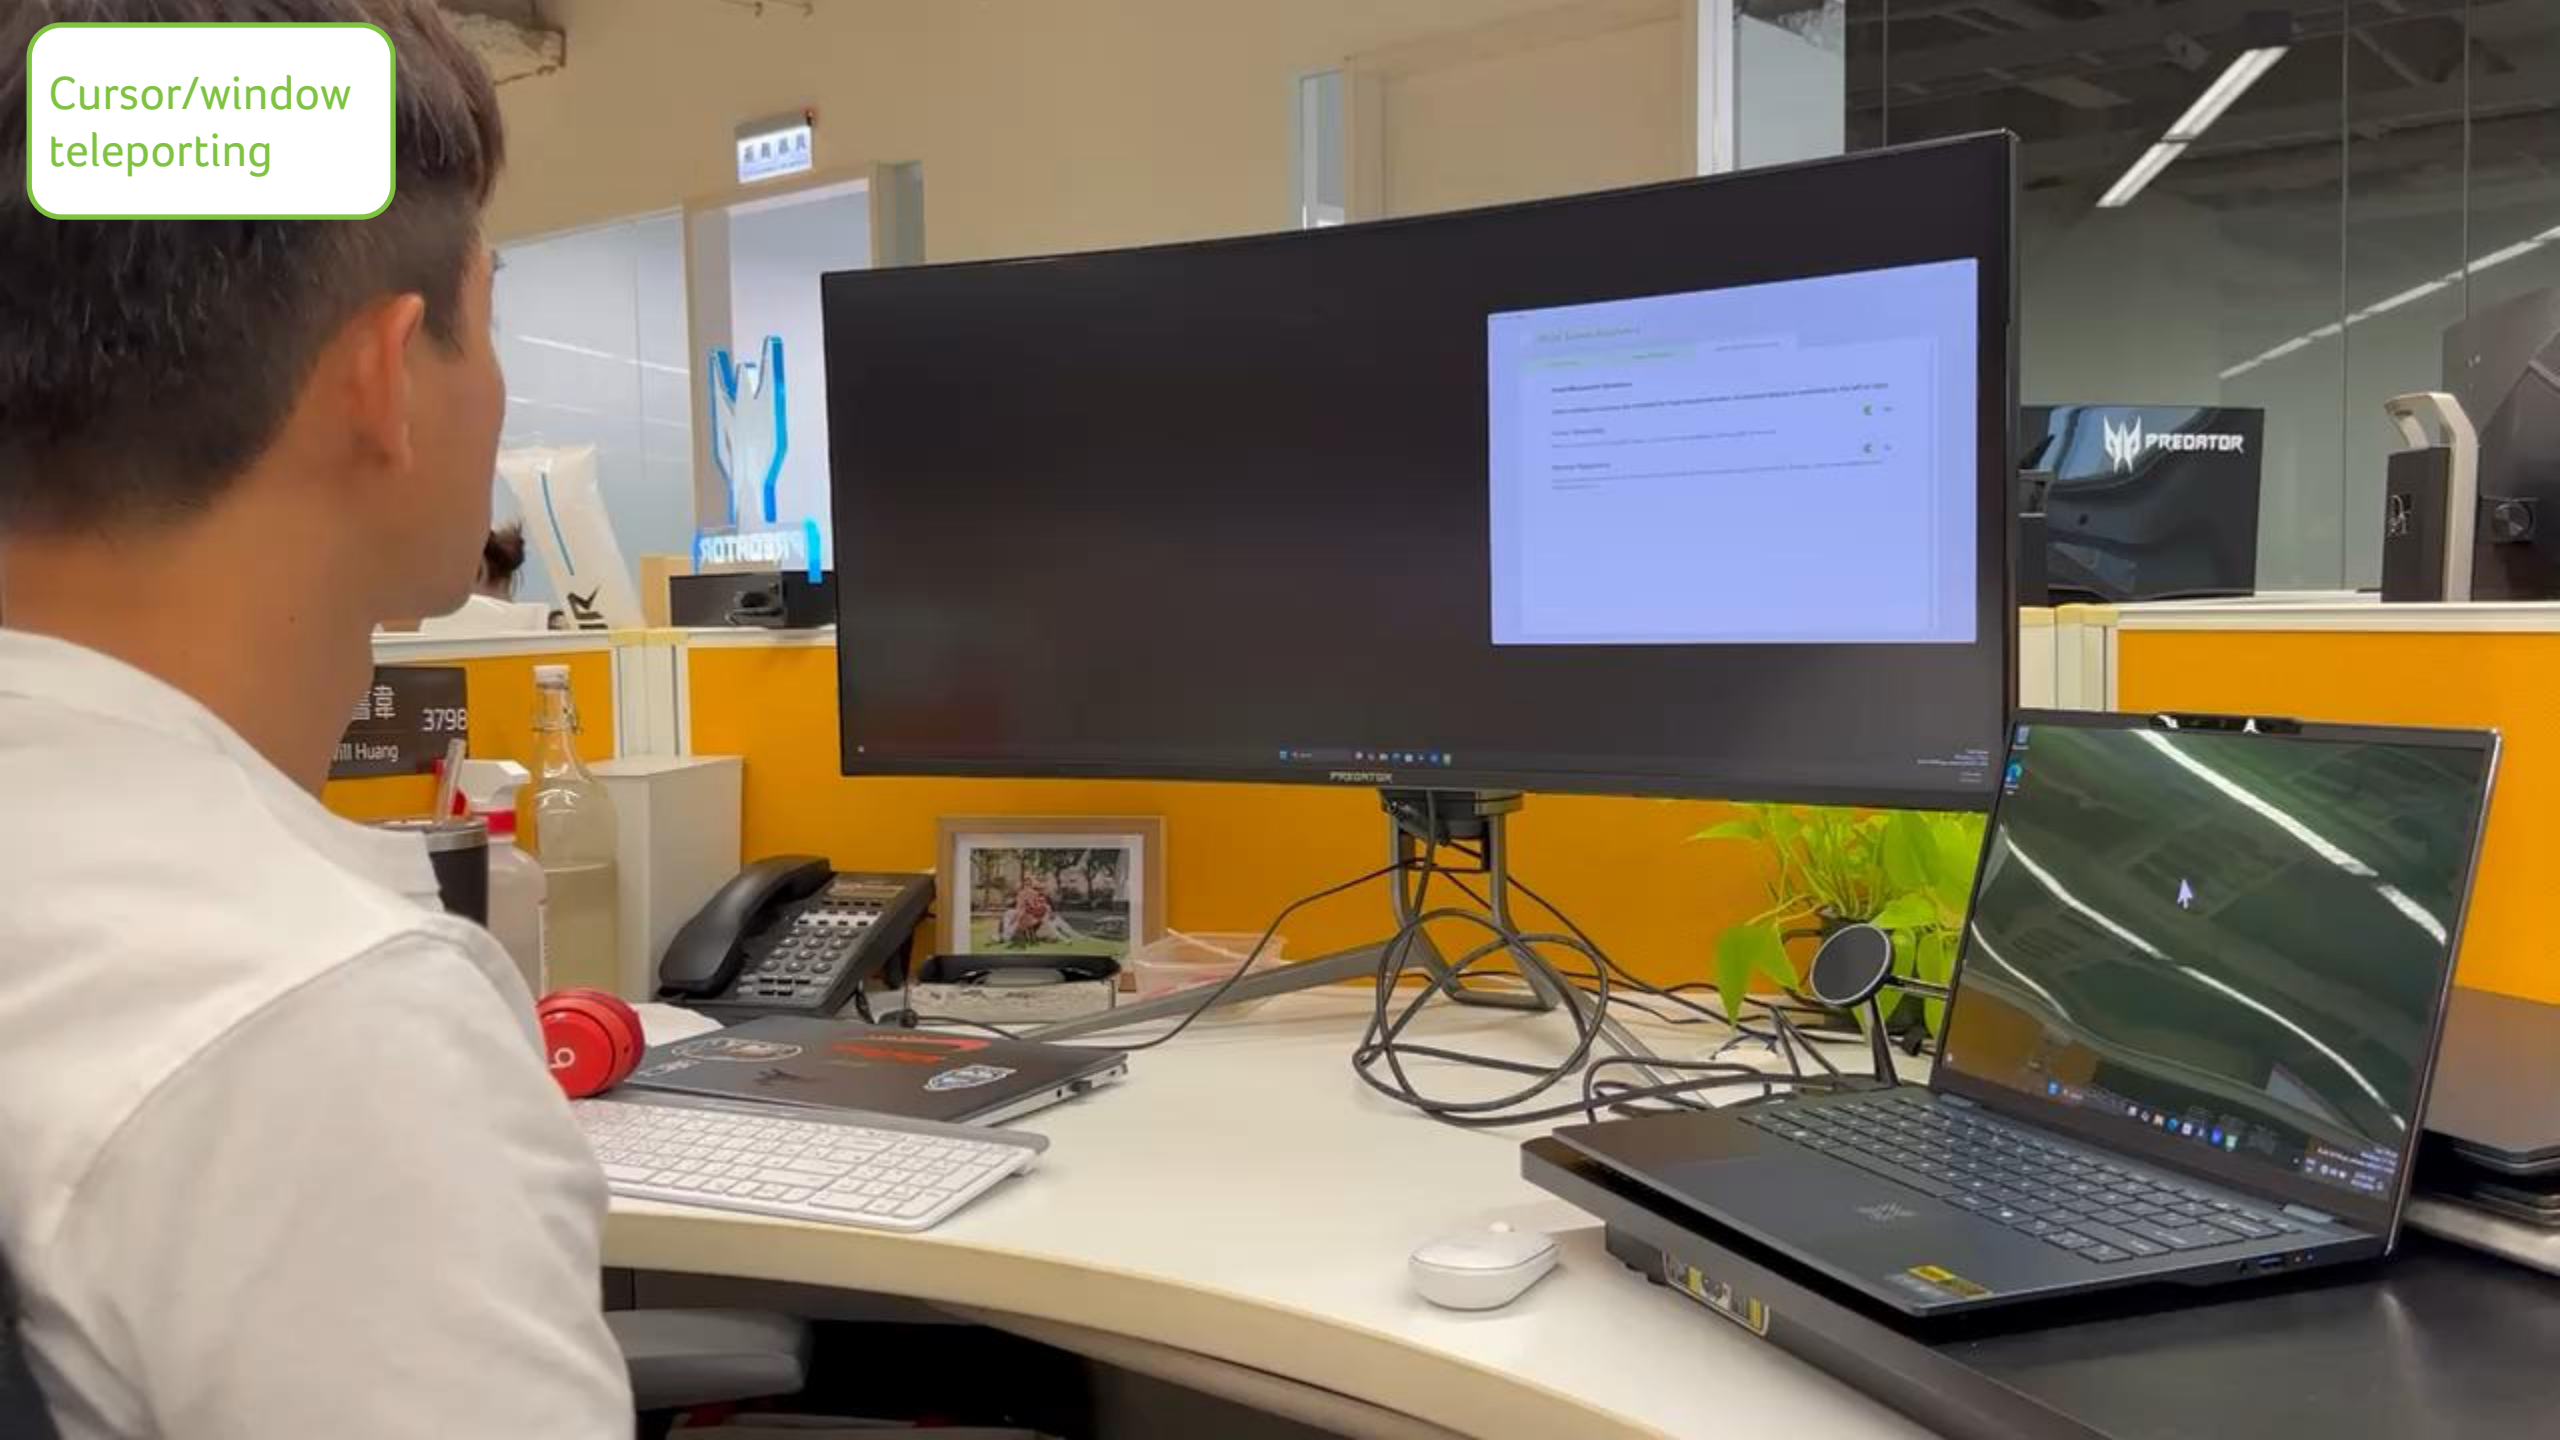

The cursor size will become bigger 5 secs then restore to the original size.

### Window Teleporting

When you long-press a window over 1 sec, you don't need to keep pressing mouse, the indicator bitmap showing at the upper-center, which mean you can start to move the selected window to where you look toward, it will be teleported magically in a blink.

Cursor/window

UNFOLD A NEW DIMENSION

# FREESENSE RING

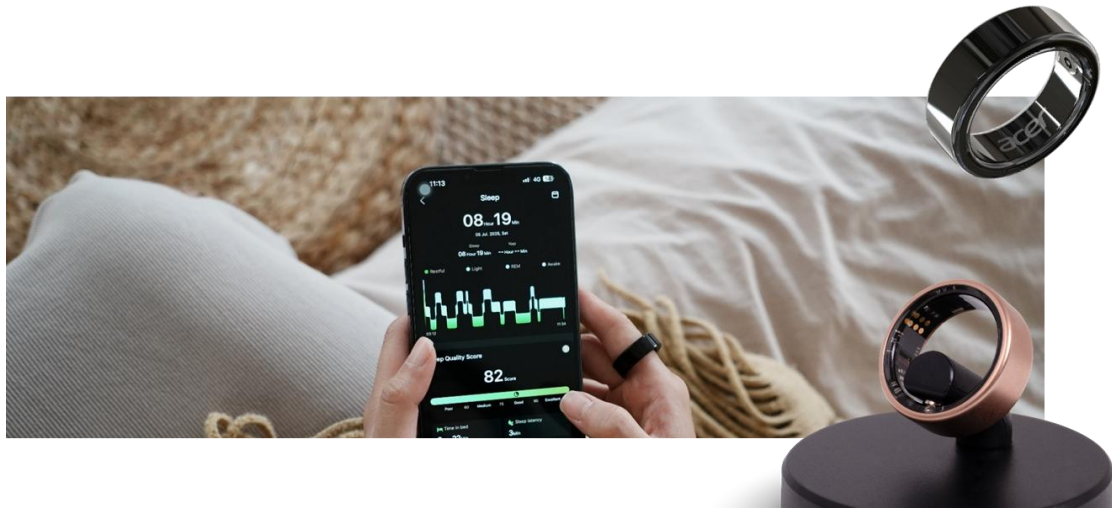

# Lightweight. Invisible. Always with You.

The Acer FreeSense Ring harnesses cutting-edge AI algorithms to gently track vital signals—heart rate, HRV, blood oxygen saturation, and stress—offering personalized health support, always in the background, never in the way. With a subscription-free app, you get full access to every feature without ongoing fees. Flexible login options let you choose the balance between privacy and convenience that works for you. Crafted with minimalist design and refined aesthetics, the ring feels as light as a whisper on the skin — weighting from just 2.9 grams \*1.

\*1The weight of this product varies by size: 2.9 to 4.0 grams.

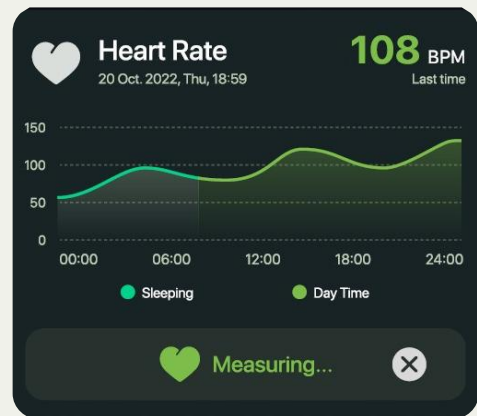

## Wear Less. Know More.

The Acer FreeSense Ring redefines wearable wellness. More than a smart ring, it's a quiet companion that stays attuned to your body and delivers meaningful insights without disruption.

## SpO2

## Heart Rate/HRV

# | One ring. Full picture.

Acer FreeSense Ring tracks your daily activity, sleep patterns, and general wellness, offering personalized AI insights to support a healthier lifestyle. For wellness tracks, the ring can automatically track heart rate and HRV all day long. Blood oxygen saturation and stress levels are available at any time; simply tap the button to view your data. It can auto-track your blood oxygen saturation during sleep. Stress tracking provides real-time insights to help you stay balanced throughout the day.

**Understand Your Sleep.**

**Empower Your Life.**

Sleep quality score is based on the Pittsburgh Sleep Quality Index calculation. Basic principles are measured through the device like the regularity of sleep, sleep duration, deep sleep ratio, time awake during the night, wake up time and other factors to assess sleep quality and score

- Aluminum Alloy Bumper Corners
- Large Capacity
- 360-Degree Silent Wheels
- Sustainable Materials
- TSA-approved Lock
- Dry and Wet Compartment Design

**TSA-approved lock for Quick Clearance - Ensuring Luggage Security**

The use of a TSA-approved lock ensures the security of your luggage, making customs clearance simple and painless.

**360-Degree Silent Wheels - Effortless, Durable, and Easy to Push**

The 360-degree silent wheels help you maintain your passion for exploration, whether you're wandering through national parks or natural reserves. You can confidently navigate various terrains, always with ease.

## Luggage Size Overview

19.5" / 24" / 28"

**+10% scientific layer**

- + Polyester lining, comfortable touch
- +10% larger than other products with the same size
- + Even boots can be fit in here!

**New design open-fold radius**  
Only 90-cm arm length required

**Conventional design open-fold radius**  
Longer than 100-cm arm length required

**Four Aluminum Alloy Bumper Corners - Always Maintaining Perfection**

Upgrading from two bumper corners to four! Increasing the level of protection to ensure that your suitcase remains in good condition regardless of the weather.

**Dry and Wet Compartment Design - Keeping Bottles and Containers Concealed**

The storage space includes an inner compartment with a dry-wet design to keep items organized and separate. Skincare products, lotions, and various bottles and jars are neatly stored, ensuring that everything stays fresh at all times. The diverse cultural handicrafts of Australia will be securely packed into your suitcase as you embark on your journey, becoming your travel companions.

**Full-Coverage Interior Storage - Ensuring Privacy and Peace of Mind for Personal Items**

The fully covered interior storage not only keeps your suitcase neat when opening and closing, but it also keeps your personal items hidden, giving you the privacy and peace of mind you require.

### Password lock user guide

**1. How to open the luggage**

The initial password is 000. Make sure all digits are even. Press the unlock key to open the luggage as shown in the figure.

**2. How to change the password**

**A** Set to the correct password. Turn the back of the lock to "SET."

**B** Flip the cipher with finger. Set the password you want.

**C** After changing the password, turn the back of the lock to "OFF."

\* International TSA is certified by the Transportation Security Administration. It is convenient for customs officers to use a special key to open the luggage. (You don't need to bring a key. Only TSA has a key.)

# BARCELONA: Features

**100% Sustainable Eco-Friendly Recycled Polyester – Crafting an Unbelievable Lightness**

Post-Consumer Recycled plastics are transformed into rPET pellets through crushing and chemical spinning, each with a unique adventure story. It gains a second mission and value as a result of advanced technology. The first step in exploring the beautiful world: Select an environmentally friendly suitcase and embark on a journey of mutual respect with nature!

**360-Degree Silent Wheels**

Crafted from high-quality, durable materials, these wheels reduce vibration and noise, providing you with an extraordinary smooth gliding experience.

**Lightweight Carry-on Luggage - Expandable Design for Instant Increased Capacity**

The 20-inch travel suitcase is ideal for short trips or when boarding a plane. It has an expandable zipper design that allows you to adjust the capacity of the suitcase as needed. The handle groove design on the bottom ensures stability and ease of lifting from any angle.

**TSA-approved Lock - Most Secure Theft Prevention**

Equipped with the latest model of TSA-approved custom combination locks that meet international standards, ensuring the safety of your belongings.

**Innovative Front-Opening Design - Suitable for Storing Laptops in Upright and Horizontal Positions**

The suitcase's user-centric optimized design allows for easy access whether it's standing upright or laid flat, providing well-organized storage space and flexible capacity expansion, and carrying every adventure, smile, and emotion. A laptop protection layer is also included for storing laptops and tablets.

**360-Degree Silent Wheels**

Crafted from high-quality, durable materials, these wheels reduce vibration and noise, providing you with an extraordinary smooth gliding experience.
